SCHOOL OF LAW

ORGANIZATION

The School of Law was established, as a department of the University, in 1893. Its primary purpose is to provide a thorough legal education for students who are fitted by their maturity and their previous academic training to pursue professional study under university methods of instruction. The curriculum covers nine quarters, or three academic years, and constitutes an adequate preparation for the practice of law in any English-speaking jurisdiction. By taking advantage of the quarter system with its opportunities for summer instruction this curriculum may be completed in two and one-fourth calendar years.

THE LAW FACULTY

The faculty of the School of Law is composed of sixteen members, twelve of whom are resident during the autumn, winter, and spring quarters, each year, and continuously engaged in the work of instruction. The lectures on Patent Law, and special lectures supplementing the courses in Practice and Legal Ethics, are given by active practitioners. Instruction during the summer quarter is given in part by members of the regular staff and in part by visiting professors from other law schools.

THE LOCATION OF THE SCHOOL

The School of Law occupies two buildings of the Inner Quadrangle, connected by an open arcade. In the first building are three lecture halls; in the second, the Law Library stackroom, the reading-room for students, and the offices of the faculty.

THE LIBRARY

The Law Library contains over 41,000 volumes, including complete sets of the English, Irish, Scotch, Australian, and Canadian reports, the reports of all federal courts, a complete set of the reports of the American States, the Australian States, and the Canadian Provinces, the National Reporter system, the standard collections of cases, the standard English and American legal encyclopedias, the principal American, English, and Canadian digests and citators, sets of the leading American, British, Canadian, and Continental legal periodicals, together with a good collection of textbooks. There is also a somewhat complete collection of compiled laws, session laws, and other statutory material, both federal and state, as well as British, Canadian, and Australian. The University Libraries are also available for use by students of the School of Law.

ADMISSION TO THE SCHOOL OF LAW

Admission to the professional curriculum in Law in regular standing is granted only to students who have received the degree of Bachelor of Arts, or an equivalent degree, from this University or from some other institution

of recognized collegiate standing, and whose previous scholastic records are satisfactory to the faculty of the School of Law.

In the discretion of the faculty admission may be granted to a very limited number of students who cannot meet the foregoing requirement, but who are eligible for admission to the University, who are twenty-five years of age, and whose previous experience is such as to justify the presumption of their ability to do the work successfully. Such students are termed "unclassified" and are not eligible for a degree.

It is advised that arrangements for admission be completed in advance. The necessary application blanks and any further information desired as to admission will be furnished upon request. Intending students are requested to forward or present their credentials to the Dean at least two weeks before the opening of the quarter which they desire to attend. (Special regulations governing admission of women to the University make it necessary for women candidates to file application and credentials not later than the following dates: May 1 for the autumn quarter, December 1 for the winter quarter, March 1 for the spring quarter, and June 1 [or until numerical limitation is reached] for the summer quarter.)

Second- and third-year students are admitted at the beginning of any quarter, but first-year students can be accepted only at the beginning of the summer and autumn quarters.

ADVANCED STANDING IN LAW

The adjustment of credit for law work done elsewhere is determined by action of the Faculty of Law upon the facts of each case. Students who contemplate transferring to this School are advised to have official transcripts of their law work sent in advance for a provisional statement of the amount of advanced standing that may be expected. No credit will be given for Law taken at another institution prior to the conferring of the degree of Bachelor of Arts or its equivalent. Only students in good standing and eligible to return to the school from which they are transferring can be accepted.

DEGREES

BACHELOR OF LAWS

The degree of Bachelor of Laws (LL.B.) is conferred upon recommendation of the Committee on Graduate Study on students who have received the degree of Bachelor of Arts, or its equivalent, from this University or from some other institution of recognized collegiate rank, and who have thereafter: (1) satisfactorily completed courses in Law aggregating 117 units, including therein all first-year professional courses; (2) devoted nine full quarters of time to the study of Law; and (3) otherwise satisfied the requirements of the University and of the School of Law.

MASTER OF LAWS

The School of Law offers a fourth year of work, leading to the degree of Master of Laws (LL.M.), to those wishing additional training. This work is designed to serve the needs of two groups of students: those desiring a more complete training for the practice of law and those looking forward to law teaching or other forms of scientific legal research. The work offered is varied and can be adapted to the needs of each student. Opportunity will be

afforded the student to include in his program such second- and third-year law courses, not already completed, as are desirable for the rounding out or supplementing of his previous training. In addition he may enroll in any fourth-year courses. These courses are largely in the form of directed research and in them the student will not merely acquire thorough training in subject-matter but also skill in the finding and evaluating of authorities and practice in the orderly and forceful expression of his conclusions in writing. Arrangements have also been made with the Graduate School of Business whereby fourth-year law students will be admitted to such courses in business as are most appropriate for the lawyer. The practice of law today is such that to be efficient the lawyer must be able to understand not only his business client's point of view but also his client's business problems. Such courses as Accounting, Business Finance, and Business Policy are admirably adapted to this purpose and may be included as a part of the fourth-year program. (For an outline of courses in business see the *Announcement of the Graduate School of Business*.)

Admission to candidacy for the degree of Master of Laws will be granted only to students who are eligible for admission to the School of Law in regular standing and who have completed, with grades acceptable to this Faculty, the work for the first degree in law at this University, or at some other university law school of recognized standing in which the work for the first degree in law covers a period of not less than six years of combined academic and law study, and who otherwise satisfy the requirements of the University and of the School of Law.

The degree of Master of Laws will be conferred upon students so admitted to candidacy upon the successful completion of one year (39 units) of work in this school in accordance with the rules of the University and of the School of Law. Upon his admission to candidacy, each student must present for the approval of the Faculty the program which he wishes to pursue for this degree. The major portion of such program shall be in law and shall include at least ten units in two or more fourth-year law courses, in one of which a minimum of six and a maximum of eight units shall be devoted to the preparation of an acceptable thesis.

DOCTOR OF THE SCIENCE OF LAW

Admission to candidacy for the degree of Doctor of the Science of Law (J.S.D.) will be granted only to those who have received the degree of Master of Laws at this University and who have completed the work required for such Master's degree with marked excellence and have given clear proof of ability to do independent research in law of a high order.

The degree of Doctor of the Science of Law will be conferred upon applicants so admitted to candidacy who spend one full academic year in independent legal research and as a result thereof present a thesis which is, in the opinion of the Faculty of the School of Law, a contribution to knowledge. Such work and thesis shall conform to the rules and regulations of the University and of the School of Law.

THE SUMMER QUARTER

In planning the work of the summer quarter the aim has been to provide for students beginning the study of Law as well as for those who are prepared for advanced Law courses. For those beginning, the courses in Contracts

and Personal Property are offered. Due to the fact that classes are much smaller in the summer than in the other quarters of the year, it is a very desirable time at which to begin the study of Law.

It should be noted that for the purpose of the School of Law the summer quarter is divided into two equal terms, the first of which will open on June 22 and close on July 29, and the second of which will open on July 31 and close on September 2.

FEES

The tuition fee for graduate students in Law is \$100 per quarter. (For students registered in the University prior to the autumn quarter of 1930, the fee is \$85 per quarter.) In addition, a Law Library fee of \$5 and a community fee of \$14 are charged each student.

Students attending but one-half of the summer quarter will be charged one-half of the foregoing tuition fee, in addition to the library and community fees.

In addition to the regular quarterly fees, charge is made for mimeographed material used in various law courses.
